

**CareOregon Advantage Plus/Star
 AND
 CareOregon OHP Plus/Standard**
NO AUTHORIZATION REQUIRED - CPT CODE LIST
 Revised **April 15, 2011**

PLEASE NOTE: CPT code changes occur annually and occasionally through out the year. It's important that provider offices ALWAYS determine authorization requirements based on current codes in effect at the time the service is being requested and provided.

INSTRUCTIONS

1. Use this code list in conjunction with the Authorization Guidelines based on the member's primary coverage (CareOregon Advantage Plus/Star or CareOregon OHP Plus/Standard).
2. This list applies to the following services:
 - a) office , b) ancillary, c) ASC for ASC approved procedures, and d) facility day patient/surgery

OHP MEMBERS - additional instructions:

1. For diagnostic (dx) procedures - diagnosis does NOT need to pair with CPT code.
2. For treatment (tx) procedures - diagnosis DOES need to pair with CPT code unless otherwise indicated!
3. For **standard** members - **ALL** hospital facility day patient/surgery procedures require an authorization! For hospital ancillary services (e.g. radiology and laboratory), use this list in conjunction with the Authorization Guidelines.
