GUIDELINE NOTE 12

Per the **OHP Prioritized List of Health Services Guideline note 12**: Treatment with intent to prolong survival is not a covered service for patients who have progressive metastatic cancer with

- 1. Severe co-morbidities unrelated to the cancer that result in significant impairment in two or more major organ systems which would affect efficacy and/or toxicity of therapy; OR
- 2. A continued decline in spite of best available therapy with a non reversible Karnofsky Performance Status or Palliative Performance score of <50% with ECOG performance status of 3 or higher which are not due to a pre-existing disability.

OAR 410-120-1200 (2) (a): Excluded services and limitations: The Division of Medical Assistance Programs (Division) shall make no payment for any expense incurred for any of the following services or items that are (a) Not expected to significantly improve the basic health status of the client as determined by Division staff, or its contracted entities.

To qualify for treatment coverage, please check that ALL of the following have been met:

- The patient does **NOT** have severe co-morbidities unrelated to the cancer that result in significant impairment in two or more major organ systems which would affect efficacy and/or toxicity of therapy.
- The patient has **NOT** had a continued decline in spite of best available therapy with a non-reversible Karnofsky Performance Status or Palliative Performance score of <50% with ECOG performance status of 3 or higher which are not due to a pre-existing disability.
- There has been a documented discussion with the patient about treatment goals, treatment prognosis and the side effects, and knowledge of the realistic expectations of treatment efficacy.
- The prescribed treatment is provided via evidence-drive pathways (such as NCCN, ASCO, ASH, ASBMT, or NIH Guidelines) when available.

Please provide any other pertinent information and include medical records with your request.
